- c) An intake of over 3,000 new workers in 2018, who require training and familiarization with Safety Operating Procedures.

**ii) What are the measures taken to ensure a safer workplace for all employees?**

We have adopted a "Zero Harm" approach (Think Safe/Work Safe/ Home Safe) in the implementation of a safety culture at the workplace.

Measures to ensure a safer workplace for all employees are ongoing. These include increasing safety awareness initiatives and the frequency of training sessions with more structured modules. Additionally, daily spot checks for all potential hazards that can lead to accidents are conducted, while safety procedures particularly in factories, have since been strictly enforced. We are also intensifying our focus on Safety Operating Procedure training for both experienced and new workers, to enhance their awareness and competency.

The well-being of our people continues to be a foremost priority and underscoring its importance, we established Top Glove Global Doctors, a super-clinic and ambulatory centre (staffed with 2 doctors, 1 dentist and 3 nurses) for our employees. We have also engaged 5 full-time Corporate Nutritionists to drive health programs and initiatives at Top Glove.

- (a) Any legal action to be taken against The Guardian (UK) newspaper on the misstatement of infringement of labour right?

In respond, Dato' Lee KM replied that the Company had invited Thomson Reuters Foundation to visit the factories and workers' hostel to see the conditions for themselves. Thomson Reuters Foundation was satisfied with the result of the visit and explanation given by Top Glove. The same invitation was also extended to UK's The Guardian newspaper and thus far, no news received from them.

Measures have been implemented to follow the overtime limit as stipulated in the Employment (Limitation of Overtime Work) Regulations 1980 i.e. 104 hours per month.

Tan Sri Dr. Chairman informed that The Guardian (UK) newspaper had wrongly reported Top Glove's profit of £1.0 billion where the actual net profit recorded was RM433.62 million, which was equivalent to £82.0 million for the financial year ended 31 August 2018. Mr. Veiven Goon, a shareholder, raised the following questions:

- (a) Why impairment is not provided for in the audited financial statements of the Group in respect of the overstatement of the inventories, plant and machineries of Aspion Sdn. Bhd. ("**Aspion**")?

In respond, Mr. Lim Cheong Guan ("**Mr. Lim**") replied that the impairment test has been conducted based on value in use calculations using discounted cash flow projections and the value-in-use is higher than the goodwill and non-current assets of Aspion Group. Hence, no impairment was provided in the audited financial statements of the Group for the financial year ended 31 August 2018. This impairment test would be conducted annually.

Tan Sri Dr. Chairman added that one-third (1/3) of the TG Group factories were acquired through mergers and acquisition but not all investments are guaranteed with good return. Most importantly overall the Group is still performing well and the Company needs to have mergers and acquisition in order to expand its businesses as organic growth would take longer time.

- (b) Based on the audited financial statements of the Group, why there is no additional fund allocated to expand the condom business?

In respond, Tan Sri Dr. Chairman replied that condom business is very competitive in international market and needs to be certified by the International Organisation for Standardisation ("**ISO**") and other relevant authorities. While pending for the certifications, Top Glove does not want to expand its condom business as yet in order to contain the costs.

Mr. Tan Ging Tuang, a shareholder, raised the following question:

- (a) What is the safety level of the Company as compared to other competitors as safety is one (1) of the major issues in growing business?

In respond, Tan Sri Dr. Chairman replied that Top Glove had adopted a "Zero Harm" approach (Think Safe/Work Safe/Home Safe) as a safety culture at the workplace. Measures to enhance the aforesaid matter are on-going. These include increasing safety awareness initiatives and frequent training sessions with more structured modules to the employees.

Tan Sri Dr. Chairman also informed that the Company had established Top Glove Global Doctors, a clinic and ambulatory centre for all employees and every injury (major and minor) would be reported in the Management meeting so that the Heads of Department are accountable for the reported incident and also to create awareness on the importance of safety at workplace.

Mr. Rien Hashim, a proxyholder, raised the following questions:

- (a) How does the Company deal with the false news reported in the social media in relation to Employees Provident Fund Board ("**EPF**") investment in Top Glove's shares was due to Tan Sri Dr. Chairman involvement in the management board of EPF?

In respond, Tan Sri Dr. Chairman replied that he only sits on the management board of EPF to safeguard the interests of the stakeholders and not on the investment board of EPF. Hence, Tan Sri Dr. Chairman is independent from the investment made by EPF in Top Glove's shares. Furthermore, EPF has been investing in Top Glove's shares prior to Tan Sri Dr. Chairman's appointment on the management board of EPF. EPF has gained significant profits from the aforesaid investment through dividend payments and appreciation of share prices of Top Glove. In fact, EPF has reduced its investment in Top Glove's shares as compared to three (3) years ago.

- (b) How does the Company deal with the increase of the cost of raw materials?

In response, Tan Sri Dr. Chairman replied that the rubber price fluctuation would affect the production cost of rubber gloves but the price movement is beyond the Company's control.
