KUALA LUMPUR (April 13): Top Glove Corp Bhd's share price pared gains in afternoon trades today after rising to a record high on expectation that the Covid-19 pandemic, which has killed more than 100,000 people globally, will result in higher demand for rubber gloves as the healthcare sector contends with the rising number of infected individuals.

At 12:30pm, Top Glove' share price settled up 22 sen or 3.38% at RM6.72 for a market capitalisation of RM17.35 billion. At RM6.72, Top Glove shares were traded at a price-earnings ratio (PER) of 46.05 times.

Top Glove's share price pared gains after rising to a record high at RM6.83 earlier today.
